These are excerpts from the actual bill:

`(3) **HOMEGROWN TERRORISM**- The term `homegrown terrorism` means the use, planned use, or threatened use, of **force** or violence by a group or individual born, raised, or based and operating primarily within the United States or any possession of the United States to intimidate or coerce the United States government, the civilian population of the United States, or any segment thereof, in furtherance of political or social objectives.

`SEC. 899B. FINDINGS.

`The Congress finds the following:

`(1) The development and implementation of methods and processes that can be used to prevent violent radicalization, homegrown terrorism, and ideologically based violence in the United States is critical to combating domestic terrorism.

`(2) The promotion of violent radicalization, homegrown terrorism, and ideologically based violence exists in the United States and poses a threat to homeland security.

`(3) The Internet has aided in facilitating violent radicalization, ideologically based violence, and the homegrown terrorism process in the United States by providing access to broad and constant streams of terrorist-related propaganda to United States citizens.

`(4) While the United States must continue its vigilant efforts to combat international terrorism, it must also strengthen efforts to combat the threat posed by homegrown terrorists based and operating within the United States.
